

JOSU GOITIA MARTINEZ

Software Engineer / Developer

Mungia, Bizkaia | +34 688 877944 | josugoitiarmartinez@gmail.com | [Portfolio: josgoi.github.io](https://github.com/josgoi) | Available for relocation

PROFESSIONAL SUMMARY

Computer Science graduate in Real-Time Interactive Simulation (DigiPen), with a solid foundation in algorithms, data structures and software architecture. Experience designing and implementing complex projects with C++, C# and JavaScript/TypeScript, applying design patterns, multithreaded programming and good development practices in agile team environments. Strong self-directed learner and problem solver. C1 English and experience delivering technical training.

TECHNICAL SKILLS

Languages: C++17/20, C#, JavaScript (ES6+), TypeScript, SQL, HTML5/CSS3

Frameworks: .NET Core, React.js, Node.js, Express, Unity

Databases: PostgreSQL, MongoDB, Redis

Development & architecture: Object-oriented programming, design patterns, data structures, multithreaded programming, optimization

Tools: Git, Docker, Jenkins (CI/CD), CMake, Jira

Methodologies: Scrum / Agile methodologies

PROFESSIONAL EXPERIENCE

Programming and Godot Instructor

DigiPen Institute of Technology & Lauro Ikastola | June 2025

- Delivered training in programming and development with the Godot engine.
- Adapted technical content to different knowledge levels.

FEATURED PROJECTS

Fullstack e-commerce platform (personal project) [link](#)

Fullstack Developer | React, Node.js, MongoDB, Docker

- SPA with JWT authentication and integrated payment gateway (Stripe API).
- Deployed with Docker containers to ensure a consistent production environment.

3D engine and game (academic group project) [link](#)

Graphics and Gameplay Programmer | C++, OpenGL, GLSL, Git

- Developed a 3D graphics engine with OpenGL for rendering models and textures.
- Programmed GLSL shaders for lighting, shadows and dynamic interfaces.
- Gameplay development, level design and final game polish.

2D engine and game (academic group project) [link](#)

Tools and Gameplay Programmer | C++, OpenGL, ImGui/ImGuizmo, Git

- Built a custom editor with import/export, level creation and real-time editing.
- Gameplay and visual effects development, and final game polish.

EDUCATION

B.S. in Computer Science in Real-Time Interactive Simulation

DigiPen Institute of Technology | 2019 - 2025

Cambridge English: Advanced (C1)

Cambridge Assessment English | 2018

LANGUAGES & SOFT SKILLS

Languages: Spanish (native), Basque (native), English (C1, professional working proficiency, spoken and written).

Soft skills: problem solving and debugging of complex systems, self-directed learning of new technologies, teamwork and task coordination under pressure.
