

JOSU GOITIA MARTINEZ

+34 688 877944 · josugoitiarmartinez@gmail.com · Mungia, Bizkaia · Willing to relocate

PROFILE

Real-Time Interactive Simulation graduate with a passion for high-performance software development and scalable web solutions. I possess a strong foundation in algorithms, data structures, and systems architecture. I am highly adaptable across diverse technological environments, ranging from developing C++ graphics engines to building modern web applications with React and Node.js. Currently seeking my first professional opportunity to contribute value and further develop my technical expertise

PROJECTS

Fullstack E-commerce Platform (Personal project)

Fullstack Developer | React, Node.js & MongoDB

- Developed a Single Page Application (SPA) featuring JWT authentication and an integrated payment gateway via Stripe API.
- Deployed the solution using Docker containers to ensure environment consistency and streamline production workflows.

3D Engine & Game (Group Academic Project) [link](#)

Graphics & Gameplay Programmer | C++, OpenGL & Git.

- Developed a 3D graphics engine using OpenGL to render 3D models and textures.
- Programmed GLSL shaders to implement advanced effects, including dynamic lighting, shadows, and interactive interfaces.
- Responsible for gameplay development, level design, and final game polishing.

2D Engine & Game (Group Academic Project) [link](#)

Tools & Gameplay Programmer | C++, OpenGL, ImGui/ImGuizmo & Git

- Architected a custom editor featuring real-time level editing, asset import/export functionality, and interactive gizmos.
- Developed core gameplay mechanics, visual effects (VFX), and managed the end-to-end game polishing phase.

TECHNICAL KNOWLEDGE

Languages: C++17/20, C#, JavaScript (ES6+), TypeScript, SQL, HTML5/CSS3.

Frameworks: React.js, Node.js, Express, .NET Core, Unity.

Databases: PostgreSQL, MongoDB, Redis.

Tools: Git, Docker, CMake, Jenkins (CI/CD), Jira.

Other: Multithreaded programming, design patterns, agile methodologies (Scrum).

EDUCATION

B.S. in Computer Science in Real-Time Interactive Simulation

Digipen Institute of Technology | 2019 - 2025

Cambridge English: Advanced (C1)

Cambridge Assessment English | 2018

SOFT SKILLS

Problem Solving: Analytical mindset focused on debugging and optimizing complex systems.

Fast Learner: Self-taught in adopting new technologies, frameworks, and industry standards.

Teamwork: Experienced in coordinating tasks and collaborating within academic projects under high-pressure environments.

LANGUAGES

English: Full Professional Proficiency (C1).

Spanish: Native.

Basque: Native.
